

Mining Form MR-400

Name of lessee: Nathan Wilson

S.C. DEPARTMENT OF HEALTH AND ENVIRONMENTAL CONTROL **BUREAU OF LAND AND WASTE MANAGEMENT DIVISION OF MINING AND SOLID WASTE PERMITTING** 2600 Bull Street, Columbia, SC 29201

Telephone Number: (803) 896-4261 Fax Number: (803) 896-4001

APPLICATION FOR A MINE OPERATING PERMIT DHEC FORM MR-400 DATE VERSION ADOPTED 7/1/94

120	010-2
户特	11080

"The South Carolina Mining Act," Sections 48-20-10 through 48-20-310, Code of Laws of South Carolina, 1976, as amended provides in part: "No operator may engage in mining without having first obtained from the Department an operating permit which covers the affected land and which has not been terminated, been revoked, suspended for the period in question, or otherwise become invalided." (Section 48-20-60) I. APPLICANT INFORMATION 1. Name of Company: J.R. Wilson Construction Co. Inc. Check form of business entity: Corporation Partnership ☐ Limited Partnership ☐ Sole Proprietorship 2. Name of Proposed Mine: Early Branch Misc County: Hampton 3. Home Office Address: 4985 Savannah Hwy (803)943-3311 (Street and P.O. Box) (Telephone No.) 29924 (803)943-3694 SC (State) (Fax. No.) Local Office Address: ___ (Street and P.O. Box) (Telephone No.) (State) (Zip Code) (Fax. No.) 5. Designate to which office Official Mail is to be sent (check one): Home Office Local Office 6. Name of company personnel and their title to be the contact for official business and correspondence: Nathan Wilson Early Branch
(Nearest Town or City) 7. Location of Mine: Hwy 65
(State or County Hwy No.) 8. Locate accurately on a county map, USGS 7.5' Topographic Map, or draw a detailed map to scale of: (1) how to get to your local office and (2) how to get to the mine (attach to this application). 9. If land is leased, complete the following: A. Name of landowner: T+W Holdings Landowner's Address: 169 South Park Beaufort (City) (803)943-3311 B. Date lease became effective: /0 -/- 07 Date of lease termination: /0/2027

11	GENERAL	CHADAC	TEDISTICS	OF MINE
11.	GENERAL	CHARAC	1 EKI	OF MINE:

- 2. Mining Method:
 - A. List equipment to be used for mining and provide a brief description as to how the mine will be operated.

use truck or backhoe, should + other heavy duty equipment to stockpile and uses on an "as need basis" - material will be hauled off as needed.

B. Will there be a process plant located at the mine site within the boundary of the permitted area? Yes Y No If no, please provide a brief description of the plant equipment and function of the plant.

No processing of material will occur.

3. Do you anticipate blasting as part of the mining operation? Yes Yes No If yes, provide the distance to the nearest inhabited structure not owned or leased by the applicant. Also, provide as an attachment to this application the names and addresses of all the owners of all structures within one-half mile from the nearest point of blasting during the life of the proposed mine. How will flyrock be prevented from being projected from the permitted area?

No blasting needed on this operation.

4. Has this site been mined in the past? If so, please indicate the present condition of the land,

Yes - currently have a general mine permit for 5 Acres under Nathan Wilson's name.

- 5. What is the expected maximum depth of this mine? Provide any additional information about the final depth of the mine that would be useful to the Department. (Example: Final depth of pit will be level to adjacent road, elevation above Mean Sea Level (MSL)).
 - Expected depth is ± 30.00; low water precludes going decper
 - Final reclamation will be to ponds.

	O Permitted acres owned by the operator	
2	ko. —	
	Permitted acres leased by the operator	
e:	Permitted acreage should include the following: 1) acres of land to be affected (excavation, stockpiles, etc.); 2) future area(s) to be mined and 3) land to be used for buffer zones around The permitted area should be the property described in the LAND ENTRY AGREEMENT(S) OR MR-700).	d the affected land.
Tota	al affected acreage:	Acres
A)	Area used for sediment control ponds	± 5 Acres
B)	Area used for stockpiles of unprocessed minerals	±1 Acre
C)	Area used for spoil (overburden) banks, topsoil and disposal refuse (exclusive of tailings impoundments)	·
D)	Areas used for on-site processing facilities and stockpiles of processed minerals	<u>ø</u>
E)	Areas used for tailings pond (waste material from mineral processing)	ø
F)	Area for access or haul roads	±.5 Acre
G)	Area for excavation during the period of this permit OR	412 5 ¹
	If mining and reclamation are to be done in segments, state the size of each segment (acres) Multiply the size of the segments by 3 and enter the resulting number>	+ 20.0At

5. Number of years for which this permit is requested. The requested number of years the permit is requested should coincide with the Schedule of Reclamation as proposed by the applicant in the RECLAMATION PLAN, (Form MR-500). + 20 years	
IV. PROTECTION OF NATURAL RESOURCES'	
1. Will there be a waste water treatment system at your mine site? Yes No	
 Will there be a point source discharge from your plant or mine requiring an NPDES Permit? Yes No If yes, provide information as to how stormwater and groundwater will be managed? 	
3. Will there be air contaminant emissions from your plant or mine requiring an Air Quality Permit? Yes Vo	J
4. Do you anticipate pumping of groundwater? Ves No If yes, describe.	
5. Will jurisdictional wetlands be affected, filled or altered in any fashion that will require a Section 404 Dredge and Fill Permit? Yes	
6. Are there any known cultural or historic sites located within the proposed area to be permitted? Yes Vo	,
7. Will any part of the permitted area be used as a solid waste describe how waste, trash, scrap metal material, garbage will be handled. Yes No	
*NOTE: For questions 1-7 that need additional space for explanations, please provide additional information on an attached sheet to this application.	
8. Describe the wildlife or freshwater, estuarine or marine fisheries in the area of the mining operation. Also provide information about any ponds and/or streams that may be located in the proposed permitted area. Typical Hampton County wildlife Roams mostly agriculture area! timberland in area. No freshwater, estuarine or marine fisheries located within 1/2 miles radius.	
State the land cover and land uses on the permitted land area and contiguous tracts of land to the permitted land area.	
Mostly Farmland, agricultural, timberland area.	
Existing site was open field-farmland.	
10. Describe measures to be taken to insure against (1) substantial deposits of sediment in neighboring streams, rivers lakes or ponds; (2) landslides; (3) acid water formation and discharge. Attach any supporting documents (engineering designs, calculations, sediment & erosion control plan, setbacks, geotechnical information, acid prediction test etc.) to this application. No sectiments will be dumped into neighboring streams, Rivers lakes etc. Pumped water will be discharged into existing discharge area. Pit highwalls will be sloped 3 Hilv to prevent landslides in affected area. No processing of material loc oxidation of sand/clay will cause acid water formation.	

V. SAFETY

Describe methods to be used during the time the mine operating permit is active to prevent physical hazards to
persons and to any neighboring dwelling, house, school, church, hospital, commercial or industrial building or public
road. If applicable, provide the zoning designation for the property to permitted.

The entire property is fenced with barb wire and has a controlled access with series of gates a locks; also has a vegetative butter along the county road which acts in conjunction with the fencing and controlled access. Area is zoned agricultural with rows of pine trees seperating the road from the site.

2. Describe methods to be used to prevent an adverse effect on the purposes of a publicly-owned park, publicly-owned forest, or publicly-owned recreation area. If any of these facilities are within one (1) mile of the proposed affected property, please locate on mine location map and the submitted U.S.G.S topographic map for this application.

There are not any publicly owned facilities located near the nine site within the I mile limit.

3. Describe measures to be taken for screening the operation from view from public highways, public parks or residential areas.

There is a vegetative butter that exists along the county road 5-25-41. There are 4 rows of pine trees seperating the site from the county roads. A topsoil beam is also around the mine site to screen the mine site from public view. The beam is also vegetated with grass.

VI. MINE MAP

- 1. Provide the U.S.G.S. topographic map(s) that contains the proposed mine site. The proposed permitted area should be outlined on this submitted topographic map.
- 2. Attach two (2) copies of a map of the site (referred to as the MINE MAP) that shows the following:
 - A. Outline of the area to be affected by mining during the number of years for which the permit is requested. See Section III, Question 1 on page 3 of this application form.
 - B. Outline of the permitted area that shows the buffers zones, future mine areas and areas to be affected by mining.
 - C. Outline of the planned pits or excavations for which your company has detailed plans. If your company has reason to believe that additional land may be mined in the future within the permitted area but is not feasible to show as planned excavations; indicate these areas as FUTURE RESERVES on this site map.
 - D. Outline of areas for the storage of naturally occurring soil that will be suitable for the establishment of vegetation in final reclamation.
 - E. Outline of planned areas for disposal of refuse, exclusive of tailings ponds.
 - F. Outline of planned spoil, overburden or other similar waste material disposal areas.
 - G. Locations of planned access and haul roads on the area to be affected.

- H. Outline of planned tailings ponds.
- Locations of sediment control pond(s) and other sediment control structures within the affected area. Outline of areas on which temporary or permanent vegetation will be established to control erosion during the mine operation.
- Location and name (if appropriate) of streams, lakes, wetlands and existing drainage ditches within the area to be permitted. Use arrows to indicate direction of water flow in such streams and drainage ditches.
 - K. Boundary for the 100 year floodplain, where appropriate.
 - L. Outline of areas for stockpiles of unprocessed minerals.
 - M. Outline of area of previously mined land that will not be affected.
 - N. Outline of the area to be occupied by processing facilities including stockpiles of processed minerals if such facilities are to be an integral on-site part of the mining operation.
 - O. Show location of the two permanent survey control points.
 - P. A legend showing the name of applicant, name of the proposed mine, north arrow, county, scale, date of preparation and name and title of person who prepared the site map.

THE REQUIRED SITE MAP SHALL HAVE A NEAT, LEGIBLE APPEARANCE AND BE OF SUFFICIENT SCALE TO CLEARLY SHOW THE REQUIRED INFORMATION LISTED ABOVE. THE BASE FOR THE MAP SHALL BE EITHER A SPECIALLY PREPARED LINE DRAWING, AERIAL PHOTOGRAPH, ENLARGED USGS TOPOGRAPHIC MAP OR A RECENTLY PREPARED PLAT.

- 3. Provide the most recent county tax map that shows all contiguous land owners of the permitted mine site. Provide name and addresses of all land owners contiguous to the proposed permitted mine site.
- 4. Provide letter from an attorney attesting to (1) the ownership if the property, (2) ownership of the mineral rights and (3) that the applicant has the legal right to mine the proposed mineral resource on the property as described in this application.

We hereby certify that all information and details contained hereinabove, within any supporting documents and on the map are true and correct to the best of our knowledge. We fully understand that any willful misrepresentation of facts will be cause for permit revocation.

The applicant acknowledges that Section 48-20-130, Code of Laws of South Carolina, provides in part:

"Upon receipt of the operator's annual report or report of completion of reclamation and at any other reasonable time the department may elect, the department shall inspect the permit area to determine if the operator has complied with the reclamation plan, the requirements of this chapter, regulations promulgated by its authority, and the terms and conditions of this permit. Accredited representatives of the department at all reasonable times may enter upon the land subject to the certificate of exploration or operating permit for the purpose of making the inspection."
